Stephen:

My Mom passed away on late October. It was unexpected. My brother and I are the executors and have been primarily dealing with these issues. This and the fact that my daughters birthday was on Dec 4 is why I didn't make it to the meeting on Dec 5. Other than that pretty much the same old thing but at a slower pace as my Mom's stuff is taking up a lot of my time.

Thanks for the comments. What have you been up to lately? We're almost done with the sampling.

Stephen:

Attached are my comments. Nothing significant just word smithing.

I am sure I don't need to tell you this but you need to get a pretty good estimated volume of oily waste in the tank(s) and get them profiled (sample/analysis) for disposal. The volume estimate and sampling should take almost no time. Remember, the material has to be sent to a CERCLA approved facility.

Please let me know the anticipated schedule for this and the remainder of the activities anticipated under the removal action.

Thanks
